

Product Description:

- Product Name: Ascorbic Acid
- INCI Name: Ascorbic Acid
- CAS No: 50-81-7

Key Features:

- Antioxidant Properties
- Essential Vitamin C Source
- Color and Flavor Preservation
- Water-Soluble
- pH Stabilizer

Applications: Suitable for a wide range of food and beverage applications, including:

- Fruit Juices and Drinks
- Jams and Jellies
- Bakery and Pastry
- Ready-to-Eat Meals
- Vitamin Supplements

Guidelines for Use:

Ascorbic Acid, also known as Vitamin C, is a powerful antioxidant widely used in the food and beverages industry. It plays a crucial role in various applications, including preserving the color and flavor of foods, boosting nutritional content, and acting as a stabilizer in various formulations.

- **Antioxidant:** Ascorbic Acid helps prevent oxidative deterioration in food products. It is often used to maintain the color and quality of fruits and vegetables.
- **Stabilizer:** Acts as a pH stabilizer and can enhance the stability of certain formulations.
- **Nutritional Enhancement:** As a source of Vitamin C, it contributes to the nutritional profile of the final product.

Compliance: Our Ascorbic Acid complies with international food safety standards, meeting regulatory requirements for quality and purity.

***Certifications:** Food Grade/Kosher
