

## Product Description:

- Product Name: Cetyl Alcohol 1698

## Key Features:

- Versatile Emulsifier and Thickener
- Emollient and Moisturizer
- Opacifying Agent
- Viscosity Control
- Multifunctional Ingredient

## Applications:

- Body Lotions and Creams
- Hair Conditioners and Shampoos
- Skin Cleansers and Makeup Removers
- Sunscreens and Lotions
- Hair Styling Products

## Guidelines for Use:

- Cetyl alcohol can be added to both the oil and water phases of a formulation, but it typically requires heating to melt into the oil phase first.
- The recommended usage rate varies depending on the desired viscosity and application, typically ranging from 1% to 5%.
- Cetyl alcohol can sometimes be comedogenic for acne-prone individuals, so patch testing is recommended before using it in large quantities on the face.
- Store in a cool, dry place away from direct sunlight.

## Compliance:

- Our Cetyl Alcohol 1698 adheres to international safety and quality standards for cosmetic applications.
- It is free from harsh chemicals and irritants, making it suitable for most skin types.

\***Certifications:** Non-GMO/Kosher
