

Product Description:

- Product Name: Coco Monoethanolamide (CMEA)

Key Features:

- Versatile Foaming Agent
- Emulsifier and Thickener
- Mild Conditioning Agent
- Biodegradable and Eco-Friendly
- Cost-Effective Ingredient

Applications:

- Shampoos and Hair Conditioners.
- Body Washes and Foaming Bath Products
- Liquid Soaps and Handwashes
- Shaving Creams and Foams
- Bubble Baths and Foaming Bath Products

Guidelines for Use:

- CMEA is typically added to the water phase of a formulation during heating.
- The recommended usage rate varies depending on the desired foaming level and application, typically ranging from 1% to 5%.
- CMEA can be irritating to eyes, so avoid direct contact and rinse thoroughly after use.
- Consider individual sensitivities and adjust the concentration accordingly.
- Store in a cool, dry place away from direct sunlight.

Compliance:

- Our Coco Monoethanolamide (CMEA) adheres to international safety and quality standards for cosmetic applications.
- It is free from harsh chemicals and irritants, making it suitable for most skin types.

***Certifications:** Non-GMO/Kosher
