

### Product Description:

- Product Name: Medium Chain Triglyceride (MCT) Oil
- INCI Name: Caprylic/Capric Triglyceride
- CAS No: 73398-61-5

### Key Features:

- Quick Energy Source
- Neutral Flavor and Aroma
- Stability at High Temperatures
- Enhanced Nutrient Absorption
- Weight Management Support

**Applications:** Ideal for use in a wide range of food and beverage products, including:

- Salad Dressings and Sauces
- Smoothies and Beverages
- Baked Goods and Snacks
- Coffee and Tea Blends

### Guidelines for Use:

MCT Oil is rich in medium-chain fatty acids, providing a rapid and efficient energy source for the body. It is known to enhance the absorption of fat-soluble vitamins and nutrients, contributing to the overall nutritional value of food products.

- **Energy Boost:** Add MCT Oil to energy bars, beverages, or snacks to provide a quick and sustained energy source.
- **Cooking and Baking:** Replace traditional cooking oils with MCT Oil for stable frying, sautéing, and baking.
- **Nutrient Absorption:** Incorporate MCT Oil to improve the absorption of fat-soluble vitamins in formulations.
- **Weight Management:** Formulate products with MCT Oil to support healthy weight management as part of a balanced diet.

**Compliance:** Our MCT Oil complies with international food safety standards, ensuring a safe and high-quality ingredient for your food and beverage applications.
