

## Product Description:

- Product Name: Sucralose
- INCI Name: Sucralose
- CAS No: 56038-13-2

## Key Features:

- Zero Calories
- Heat-Stable
- Non-GMO
- No Aftertaste
- Diabetic-Friendly

**Applications:** Suitable for a wide range of food and beverage applications, including:

- Soft Drinks and Beverages
- Confectionery and Sweets
- Dairy Products
- Baked Goods
- Low-Calorie and Sugar-Free Products

## Guidelines for Use:

Sucralose is a high-intensity sweetener that provides sweetness without the calories. It is derived from sugar and is several times sweeter, making it an excellent choice for reducing added sugars in food and beverages.

- **Sweetening Power:** Sucralose is approximately 400-700 times sweeter than sucrose. Adjust the quantity based on desired sweetness level.
- **Baking Stability:** Sucralose maintains its sweetness even at high temperatures, making it suitable for baking and cooking applications.
- **Blending:** Can be used alone or in combination with other sweeteners to achieve the desired taste profile.

**Compliance:** Our Sucralose complies with international food safety standards, meeting regulatory requirements for quality and purity.

\***Certifications:** Food Grade/Kosher
