

Product Description:

- Product Name: Coco Diethanolamine (CDEA)
- INCI Name: Coco Diethanolamine

Key Features:

- Versatile Surfactant
- Derived from Coconut Oil
- Multipurpose Application

Applications:

- Cleaning & Sanitation
- Industrial Processes

Guidelines for Use:

Coco Diethanolamine (CDEA) is known for its effectiveness and versatility.

- **Emulsification:** Utilize as an effective emulsifier for creating stable emulsions in personal care and industrial formulations.
- **Cleansing:** Enhance cleansing properties in personal care items, offering a gentle and foamy texture.

Compliance:

Our Coco Diethanolamine (CDEA) complies with international safety standards, ensuring a secure and high-quality solution for your diverse applications in personal care and industrial processes.

***Certifications:** Non-GMO/Kosher
