

Product Description:

- Product Name: Isopropyl Alcohol (IPA) 99%
- INCI Name: Isopropyl Alcohol

Key Features:

- High Purity
- Fast Evaporation
- Antiseptic Properties

Applications:

- Disinfectants and Sanitizers
- Pharmaceuticals
- Industrial Use

Guidelines for Use:

Isopropyl Alcohol (IPA) 99% is a reliable choice for rapid and effective sanitization, cleaning, and industrial applications.

- **Disinfection:** Utilize as a primary ingredient in disinfectants for its potent antiseptic properties.
- **Cleaning:** Incorporate into cleaning solutions for efficient removal of dirt and contaminants.
- **Industrial Processes:** Use as a solvent and cleaning agent in pharmaceutical and industrial applications.

Compliance:

Our Isopropyl Alcohol (IPA) 99% complies with international safety standards, ensuring a high-quality and effective solution for cleaning, sanitation, pharmaceutical, and industrial applications.

***Certifications:** Non-GMO/Kosher
