

## Product Description:

- Product Name: Lauryl Glucoside
- INCI Name: Lauryl Glucoside

## Key Features:

- Gentle Surfactant
- Plant-Derived
- Biodegradable

## Applications:

- Personal Care Products
- Household Cleaners

## Guidelines for Use:

Lauryl Glucoside is a versatile and eco-friendly choice for formulators.

- **Cleansing:** Utilize as a primary surfactant for its mild cleansing properties in personal care and household cleaning formulations.
- **Sustainability:** Incorporate into formulations promoting eco-friendly and biodegradable solutions.

## Compliance:

Our Lauryl Glucoside adheres to international safety and environmental standards, ensuring a sustainable and high-quality solution for personal care and household cleaning applications.

\***Certifications:** Non-GMO/Kosher
