

Product Description:

- Product Name: Phenoxyethanol
- INCI Name: Phenoxyethanol

Key Features:

- Effective Preservative
- Wide Range of Formulation Compatibility
- High Purity

Applications:

- Personal Care Products
- Pharmaceuticals

Guidelines for Use:

Phenoxyethanol is a reliable preservative with broad compatibility, ensuring product stability in various formulations.

- **Preservation:** Utilize as an effective preservative to extend the shelf life of personal care and pharmaceutical products.
- **Compatibility:** Enjoy compatibility with a wide range of formulations for enhanced stability.

Compliance:

Our Phenoxyethanol complies with international safety and quality standards, providing a trustworthy and high-quality solution for personal care and pharmaceutical applications.

***Certifications:** Non-GMO/Kosher
