

Product Description:

- Product Name: Sodium Hydroxide (Caustic Soda)
- INCI Name: Sodium Hydroxide
- CAS No.: 1310-73-2

Key Features

- Strong base
- Versatile
- Effective cleaning agent
- Soap and detergent production
- Chemical processing
- Food and beverage industry

Applications:

- Industrial cleaning.
- Drain cleaning
- Soap and detergent production
- Chemical processing
- Food and beverage processing

Guidelines for Use:

Extreme caution should be exercised when handling sodium hydroxide due to its corrosive and caustic nature.

- Always wear appropriate personal protective equipment (PPE) when handling, including gloves, goggles, and protective clothing.
- Work in a well-ventilated area and avoid contact with skin and eyes.
- Store in a cool, dry place in a tightly sealed container.
- Never mix sodium hydroxide with other chemicals unless instructed by a qualified professional.

Compliance:

- Our Sodium Hydroxide (Caustic Soda) adheres to international safety and quality standards. It is available in various grades and concentrations depending on intended applications.

***Certifications:** Non-GMO/Kosher
