

Product Description:

- Product Name: Sodium Metasilicate Pentahydrate
- INCI Name: Sodium Metasilicate

Key Features:

- Versatile Inorganic Compound
- Effective Detergent Builder
- Metal Cleaner with Alkaline Properties

Applications:

- Cleaning and Sanitation
- Industrial Metal Surface Treatment

Guidelines for Use:

Sodium Metasilicate Pentahydrate is a multifunctional compound.

- **Stain Removal:** Utilize for effective stain removal in cleaning products.
- **Corrosion Inhibition:** Apply in industrial processes as a corrosion inhibitor for metal surfaces.

Compliance:

Our Sodium Metasilicate Pentahydrate adheres to international safety standards, ensuring a secure and high-quality solution for your cleaning, sanitation, and industrial applications.

***Certifications:** Non-GMO/Kosher
