

### Product Description:

- Product Name: Cetrimonium Chloride 30%

### Key Features:

- Conditioning Agent
- Quaternary Ammonium Compound
- Hair Care Benefits
- Antimicrobial Action
- Compatibility

### Applications:

- Conditioning Shampoos
- Hair Conditioners
- Leave-In Treatments

### Guidelines for Use:

- **Dosage:** Use Cetrimonium Chloride 30% at recommended concentrations based on the desired conditioning effects and product formulation requirements.
- **Mixing:** Ensure thorough mixing of Cetrimonium Chloride 30% with other ingredients to achieve uniform distribution and optimal performance in the final product.
- **pH Considerations:** Adjust the pH of formulations containing Cetrimonium Chloride 30% to ensure compatibility and stability, particularly in acidic or alkaline formulations.

### Compliance:

- Our Cetrimonium Chloride 30% complies with stringent quality and safety standards for personal care applications, meeting regulatory requirements and ensuring consumer safety.
- Stringent quality control measures are implemented throughout the manufacturing process to maintain the purity, stability, and efficacy of Cetrimonium Chloride 30%, ensuring consistent performance in cosmetic formulations.

\***Certifications:** Non-GMO/Kosher
