

## Product Description:

- Product Name: Sodium Cocoyl Isethionate (Powder)

## Key Features:

- Gentle Cleansing
- Rich Lather
- Mild Formulation
- Versatile Application
- Biodegradable

## Applications:

- Facial Cleansers
- Shampoos and Conditioners
- Body Washes and Shower Products

## Guidelines for Use:

- **Activation:** Activate SCI powder with water to create a paste or solution before incorporating it into formulations.
- **Dosage:** Use SCI powder at recommended concentrations according to the desired cleansing strength and product texture.
- **Compatibility:** SCI powder is compatible with a wide range of personal care ingredients but should be tested for compatibility in formulations.

## Compliance:

- Our Sodium Cocoyl Isethionate (SCI) powder complies with stringent quality and safety standards for personal care applications, ensuring its suitability for cosmetic formulations.
- Stringent quality control measures are implemented throughout the manufacturing process to maintain the purity and quality of SCI powder, meeting industry standards and regulations.

\***Certifications:** Non-GMO/Kosher
